

## WYNN'S WORN ENGINE TREATMENT

PROFESSIONAL RANGE

### ABOUT THE PRODUCT

Wynn's Worn Engine Treatment is formulated to stop exhaust smoke due to oil burning, and for sealing the gaps between worn internal moving engine parts that cause exhaust smoke.

Wynn's Worn Engine Treatment quietens most engine noise by providing extra lubrication protection where required.

Product Number	Pack Size	Carton Qty.

The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new edition appears due to the technical development, the preceding data are no longer valid.

## ADVANTAGES

Wynn's Worn Engine Treatment decreases exhaust smoke by controlling oil consumption, reducing visible exhaust gases. It provides a cushion between worn parts, helping to reduce engine noises and friction.

Wynn's Worn Engine Treatment helps to reduce engine wear resulting from direct metal-to-metal contact under extreme operating conditions (such as sustained high speed and trailer haulage). Wynn's Worn Engine Treatment improves the oil viscosity at high temperatures, thereby improving the ring sealing actions and engine compression. It also retards the oxidation and breakdown of motor oil at high operating temperatures.

## BENEFITS

Wynn's Worn Engine Treatment is formulated to provide the following benefits:

- 01 Maintains oil pressure at high temperatures
- 02 Improves performance in worn engines
- 03 Improves fuel combustion
- 04 Improves lubrication
- 05 Reduces sludge and varnish formation
- 06 Inhibits corrosion
- 07 Acid neutralisation
- 08 Cleaner engine components

## DIRECTIONS OF USE

At operating temperature or while engine is warm, add entire bottle of Wynn's Worn Engine Treatment to engine oil with engine turned off. Use at each oil change or as needed between oil changes. One 325mL bottle of Wynn's Worn Engine Treatment treats upto 6 litres of engine oil. Do not exceed 10% treatment level.

## APPLICATIONS

Wynn's Worn Engine Treatment is suitable for all petrol, LPG and four-stroke diesel engines in cars and trucks. It is not suitable for two-stroke diesel engines.
